College Planning

FOR STUDENT ATHLETES

Whether or not you hope to compete beyond high school, gymnastics can and should play an important role in your college application process!

Have Questions? GOOD!

How and When Should I Start Planning?
Is it ever too late?

Do I have to know what I want to study after high school?
How do I figure out where I want to go?

How is my gymnastics important if I don't plan to compete in college?

Are scholarships an option for me? What are the different ways my sport can "pay off" for college?

What can I start doing to make the process easier?
How do I create a recruiting profile?

When does it help to have a consultant?

We've got ANSWERS:

Karen Zediker, Ph.D.
Max Soifer, M.Ed.
Jessica Haury, M.i.T.
Kyle Bender, Level 10 HS Senior
